

Training and Evaluation Outline Report

Task Number: 71-9-4440

Task Title: Reconstitute Forces (Division Echelon and Above [Operational])

Distribution Restriction: Approved for public release; distribution is unlimited.

Destruction Notice: None

Foreign Disclosure: FD1 - This training product has been reviewed by the training developers in coordination with the Fort Leavenworth foreign disclosure officer. This training product can be used to instruct international military students from all approved countries without restrictions.

Supporting Reference(s):

Step Number	Reference ID	Reference Name	Required	Primary
	FM 4-95	Logistics Operations http://armypubs.army.mil/doctrine/DR_pubs/dr_a/pdf/fm4_95.pdf	Yes	No
	JP 4-0	Doctrine for Logistic Support of Joint Operations	Yes	Yes

Condition: The command is conducting operations as a Joint Task Force (JTF) or a Combined Joint Task Force (CJTF). The command's headquarters receives liaison, unit, and individual augmentees. The command receives an operations order from higher headquarters. The commander issues guidance on reconstituting forces. The command interfaces with joint, interagency, and unified action partners. The command establishes communications with subordinate and adjacent units, and higher headquarters. The mission command system is operational and processing information in accordance with standard operating procedures. This task should not be trained in MOPP 4.

Standard: The staff reconstitutes forces to a desired level of combat effectiveness commensurate with mission requirements and availability of resources in accordance with the commanders intent, orders from higher headquarters, and standard operating procedures.

Safety Risk: Low

Task Statements

Cue: None

DANGER

Leaders have an inherent responsibility to conduct Composite Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

WARNING

Composite Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All soldiers have the responsibility to learn and understand the risks associated with this task.

CAUTION

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

Remarks: None

Notes: None

TASK STEPS

1. The staff plans to restore degraded units to combat effectiveness commensurate with mission requirements and available resources by:

- a. Evaluating operational tempo, mission, and time.
- b. Determining whether replacement by an available unit is feasible.
- c. Recommending in-theater reconstitution to:

(1) Reorganize the unit.

(2) Regenerate the unit.

(3) Rehabilitate the unit.

2. The staff recommends reorganization by redistributing resources within a degraded unit when the risk for removing a unit from the operation may jeopardize the mission.

3. The staff recommends regeneration or rehabilitation when large-scale replacement of personnel, equipment, and supplies and mission essential training are necessary to increase a degraded unit's combat effectiveness.

(Asterisks indicates a leader performance step.)

PERFORMANCE MEASURES	GO	NO-GO	N/A
1. The staff planned to restore degraded units to combat effectiveness commensurate with mission requirements and available resources.			
2. The staff recommended reorganization by redistributing resources within a degraded unit when the risk for removing a unit from the operation may jeopardize the mission.			
3. The staff recommended regeneration or rehabilitation when large-scale replacement of personnel, equipment, and supplies and mission essential training were necessary to increase a degraded unit's combat effectiveness.

Environment: Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT. Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to FM 3-34.5 Environmental Considerations and GTA 05-08-002 ENVIRONMENTAL-RELATED RISK ASSESSMENT

Safety: In a training environment, leaders must perform a risk assessment in accordance with ATP 5-19, Risk Management. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW FM 3-11.4, Multiservice Tactics, Techniques, and Procedures for Nuclear, Biological, and Chemical (NBC) Protection, FM 3-11.5, Multiservice Tactics, Techniques, and Procedures for Chemical, Biological, Radiological, and Nuclear Decontamination.
